

Timestamp	Do you play any video games? How many hours you usually game per week, <1hr, 1-4hrs, 4-8hrs, 8+hrs?	Is it easy to use the joystick with your palm?	Do you feel any pain or discomfort with your hands in the rest position? (Resting position is when your palms are on the joysticks and fingers are in between buttons)	Are the buttons easy for you to reach and press comfortably?	Do you find the placement of the buttons confusing compared to the standard controller? (See image above)	If you find the button layout confusing, do you have any suggestions in changing the button layout?	Do you feel any pain or discomfort when using the metal buttons on the controller?	Do you find yourself having to move your hand or fingers more than usual when using this controller?	Is there any part of the controller that is difficult to reach or press for you? If so, please specify the part.	Do you feel like the size and shape of the controller are comfortable for your hand?	Do you think you can play games for 30 minutes without experiencing any discomfort or pain in your hands or joints?	Do you believe the e-remole is more comfortable compared to the standard controller?	Is there anything else you would like to add about how the controller feels or works for you?
3/2/2023 17:38:10	1 - 4 hours per week	5	4	4	1		1	joystick, bc joysticks were too high, it was hard to reach buttons		5	5	5	1. joysticks are too high; would feel better pushing down instead of floating; idea - have bottom dented down so bottom of palm can rest 2. peak of sphere is too high 3. cant play without looking; would rather have shorter buttons (in length) and rest position under; maybe some dents at rest position 4. move joysticks closer together 5. slant the top half (where buttons are) down 6. metal flush against plastic 7. more portable 8. logo button is hard to press 9. have hemisphere concaved in 10. rotate casing to have buttons on the down slope 11. add rubber along flat end of joystick 12. closer buttons and more curved button 13. use silly putty to find correct hand position
3/10/2023 9:23:48	I do not play games.	4	3	4	4	Leave the button placement open because people with RA so they can customize the layout	2	4	need a hand rest (palm rest) on the joystick.	5	3	3	why does it have to be a capacity button like this? Rumble when you press the button 3 I do not like the new design because my fingers will move with the joystick so the buttons will be hard to press
3/10/2023 9:49:12	I do not play games.	4	4	4		5 button placement is uncomfortable	2	4	palm rest. Buttons placement is difficult	4	3	4	4
3/10/2023 10:35:28	Less than 1 hour per week	1	4	1		2 used to them	1	3	joystick size is fine but palm rest would be nice	1	2		Too big for personal preferences 3 Alternate Design: Would be better for wrist pain
3/10/2023 11:09:06	1 - 4 hours per week	3	5	4		4 a bit a confusing	4	2	get joystick lower so hand is more stretched out	1	2	1	Hand pain: across the palm area
3/10/2023 11:14:32	I do not play games.	5	5	1		1 Button layout needs to be slanted	1	2	wrist are very sore	3	5	1	
3/10/2023 11:46:47	Less than 1 hour per week	1	2	1		2	1	1	Button placement is a little confusing and difficult to reach.	1	4	2	
3/10/2023 12:22:35	I do not play games.	1	2	2		3 no, but I need to get use to them	1	2	index finger and small finger button was difficult to reach	1	2	2	
3/10/2023 12:31:50	I do not play games.	4	4	5		4 Button bothers me a lot	5	5	joystick is too high. If there is a hand rest on the joystick, it would be more comfortable to use joystick is too high and button placement hurts the top of my hand	5	5	5	
3/14/2023 13:31:25	1 - 4 hours per week	2	4	1		2	1	3	Button placement is a little confusing and difficult to reach.	2	1	1	
3/14/2023 13:33:20	Less than 1 hour per week	4	4	1		4 Placement of button doesn't fit the natural position of my fingers	1	1	joystick is too high. If there is a hand rest on the joystick, it would be more comfortable to use joystick is too high and button placement hurts the top of my hand	3	2	1	
3/14/2023 13:35:01	1 - 4 hours per week	1	1	1		1 Would be more comfortable if buttons were slanted	1	1	joystick is too high. If there is a hand rest on the joystick, it would be more comfortable to use joystick is too high and button placement hurts the top of my hand	3	2	2	
3/14/2023 13:35:56	1 - 4 hours per week	4	4	1		1	1	4	joystick is too high and button placement hurts the top of my hand	4	4	4	
3/14/2023 13:36:40	Less than 1 hour per week	1	1	1		1	1	1	No, it is very comfortable	1	1	1	
3/14/2023 13:37:51	I do not play games.	1	1	3		1 button placement should change to fit natural curvature of fingers	1	1	Buttons were hard to reach	2	2	2
